Magnus Fliesberg: »Astral weeks« are 48 paintings (acrylic on panel with size 30x21 cm). They were all painted during february-may 2013 as a tribute to the same album by Van Morrison released in 1968. An album as beautiful as life itself...

Goekhan Erdogan: my basal practice could be described as a disjunction between the production of self portraits and processes of formalistic art. The concept explores the social construction of a face and its utilization within certain subject matters.
